DETAILED ACTION

Response to Amendments

1. Claim 1 has been amended in the above-identified application. Claims 2, 20-27 and 37 have been canceled. **Claims 1, 3-19, and 36 are now pending.**

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1, 3-19, and 36 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Independent claim 1 has been amended to recite a coated resilient floor comprising an intermediate acrylic coating and a hardenable waterborne urethane or acrylate overcoat "wherein the overcoat and intermediate coating will later dry or otherwise harden". However there is no support for such an amendment in the original disclosure, i.e., the Specification or the original claims. The Specification on Page 8, lines 24 to 30 specifically states that "one or more coats of the waterborne overcoat (diluted if necessary with additional water or another suitable cosolvent) can be applied to the intermediate coating as soon as the intermediate coating has dried to the touch".

Art Unit: 1773

Hence, there is no support for a coated resilient floor wherein both the intermediate acrylic coating and the hardenable waterborne urethane or acrylate overcoat will later dry or otherwise harden. Appropriate amendment or clarification is required. Applicants are reminded that any prior art rejections of record may be reapplied upon the cancellation of the new matter in the claims.

Response to Arguments

3. Applicant's arguments with respect to claims 1, 3-19, and 36 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 1773

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
